Rodolfo Resende
CEO

We are still on our journey towards Sustainability.

We keep sustainability in our minds everyday and that's why it's become one of our daily goals. Thanks to our team's restless work we are making amazing progress, and throughout 2020, we overcame our goals and 66% of our collection is now produced with recycled plastic. However, we keep on challenging ourselves to reduce our environmental impact and stay on track promoting actions that highlight our **ECO-FRIENDLY** mindset of a sustainable production. 100% of our production waste is recycled and optimised to make new products and we keep reducing our packaging waste too. To do so, we reduced single use wraps on our products and gave up on plastic labels so now, all our labels are produced on recycled paper. This represents our journey through sustainability and we are always trying to go further. That's why we keep on working to produce all our collection with recycled material.

A sustentabilidade continua presente nas nossas mentes diariamente e, por essa razão, tornou-se num dos nossos objectivos diários. Graças ao trabalho incansável da nossa equipa, temos feito progressos incríveis e, ao longo de 2020, superámos as nossas expectativas e 66% da nossa coleção é, agora, produzida com plástico reciclado. No entanto, continuamos a desafiar-nos para reduzir o nosso impacto ambiental e manter-nos no caminho certo, promovendo ações que realcem a nossa mentalidade **ECO-FRIENDLY** como a produção sustentável. 100% do desperdício da nossa produção é reciclado e otimizado para fazer novos produtos e, relativamente ao embalamento, continuamos na redução do desperdício nas embalagens. Para isso, reduzimos o invólucros de plástico de utilização única que envolviam os nossos produtos e desistimos das etiquetas de plástico por isso, agora, todas as nossas etiquetas são produzidas em papel reciclado. Isto representa a nossa jornada pela sustentabilidade sendo a nossa vontade conseguir ir mais longe. É por essa razão que continuamos a trabalhar para que toda a nossa coleção possa ser produzida com material reciclado.

La sostenibilidad sigue presente en nuestra mente a diario y, por ello, se ha convertido en uno de nuestros objetivos diarios. Gracias al trabajo incansable de nuestro equipo, hemos logrado avances increíbles y, a lo largo de 2020, hemos superado nuestras expectativas y el 66% de nuestra colección se produce con plástico reciclado. Sin embargo, seguimos desafiándonos para reducir nuestro impacto ambiental y mantener el rumbo, promoviendo acciones que mejoren nuestra mentalidad **ECO-FRIENDLY** como producción sostenible. El 100% de nuestros residuos de producción se reciclan y optimizan para la fabricación de nuevos productos y seguimos reduciendo los residuos de nuestros envases. Para ello, redujimos los embalajes de plástico de un solo uso que rodeaban nuestros productos y renunciamos a las etiquetas de plástico, por lo que ahora todas nuestras etiquetas están hechas de papel reciclado. Esto representa nuestro camino hacia la sostenibilidad y nuestro deseo es poder ir más allá. Por eso seguimos trabajando para que toda nuestra colección sea producida con material reciclado.

La durabilité est toujours présente dans notre esprit et c'est pourquoi elle est devenue l'un de nos objectifs quotidiens. Grâce au travail inlassable de notre équipe, nous avons fait des progrès incroyables et, en 2020, nous avons dépassé nos attentes et 66 % de notre collection est produite avec du plastique recyclé. Cependant, nous continuons à nous mettre au défi de réduire notre impact sur l'environnement et à rester sur la bonne voie en promouvant des actions qui soulignent notre état d'esprit **ECO-FRIENDLY**, comme la production durable. 100% des déchets issus de notre production sont recyclés et optimisés pour fabriquer de nouveaux produits et, en ce qui concerne les emballages, nous continuons à réduire les déchets d'emballage. À cette fin, nous avons réduit l'emballage plastique à usage unique de nos produits et renoncé aux étiquettes en plastique, de sorte que toutes nos étiquettes sont désormais produites sur du papier recyclé. Ceci représente notre voyage vers la durabilité et nous voulons aller plus loin. C'est pourquoi nous continuons à travailler pour que toute notre collection puisse être produite avec des matériaux recyclés.

Wir behalten Nachhaltigkeit jeden Tag im Kopf und deshalb wurde sie zu einem unserer täglichen Ziele. Dank der unruhigen Arbeit unseres Teams machen wir erstaunliche Fortschritte und haben im Laufe des Jahres 2020 unsere Erwartungen übertroffen: 66% unserer Kollektion wird aus recyceltem Kunststoff hergestellt. Wir fordern uns jedoch weiterhin heraus, unsere Umweltbelastung zu verringern und Maßnahmen zu fördern, die unsere **ECO-FRIENDLY** Denkweise wie eine nachhaltige Produktion unterstreichen. 100% unserer Produktionsabfälle werden recycelt und für die Herstellung neuer Produkte optimiert. Außerdem reduzieren wir unseren Verpackungsabfall weiter. Zu diesem Zweck haben wir die Einwegverpackungen unserer Produkte reduziert und die Kunststoffetiketten entsorgt. Alle unsere Etiketten werden jetzt aus Recyclingpapier hergestellt. Dies ist unser Weg durch die Nachhaltigkeit und wir versuchen immer weiter zu gehen. Deshalb arbeiten wir weiter daran, unsere gesamte Kollektion aus recyceltem Material herzustellen.

A perfeita simbiose entre o design e os recursos naturais traz consigo o toque e as cores da terra, as texturas inspiradas na natureza e a sensação de estar envolvido por ela. Desenhado com a Natureza para trazer um pedaço dela na sua essência, o Havana molda a terra em design.

We are passionate about Orchids so we designed a pot that empowers this beautiful plant by providing them the best conditions and contributing to its well-being. With a raised bottom, this pot allows roots to keep away from the water so the orchids can grow healthy and look even more beautiful. Moreover, it exists in three transparent colors that allows the contact between the roots and the sunlight.

Somos apaixonados por orquídeas, por isso desenhamos um vaso que empodera estas maravilhosas flores dando-lhes as melhores condições e contribuindo para o seu bem-estar. Com um fundo elevado, este vaso permite que as raízes se mantenham afastadas da água para que as orquídeas possam crescer saudáveis e ainda mais bonitas. Além disso, existe em três cores transparentes que permitem o contacto das raízes com a luz do sol.

Nos apasionan las orquídeas, así que hemos diseñado una maceta que potencia estas hermosas flores proporcionándoles las mejores condiciones y contribuyendo a su bienestar. Con un fondo levantado, esta maceta permite que las raíces se mantengan alejadas del agua para que las orquídeas crezcan sanas y se vean aún más hermosas. Además, existe en tres colores transparentes que permiten el contacto entre las raíces y la luz del sol.

Nous sommes passionnés par les orchidées, c'est pourquoi nous avons conçu un pot qui donne du pouvoir à ces merveilleuses fleurs en leur offrant les meilleures conditions et en contribuant à leur bien-être. Avec un fond surélevé, ce pot permet aux racines de rester à l'écart de l'eau pour que les orchidées puissent pousser sainement et être encore plus belles. De plus, il est disponible en trois couleurs transparentes qui permettent aux racines d'entrer en contact avec la lumière du soleil.

Wir haben eine Leidenschaft für Orchideen, deshalb haben wir einen Topf entworfen, der diese schönen Blumen stärkt, ihnen die besten Bedingungen bietet und zu ihrem Wohlbefinden beiträgt. Mit einem angehobenen Boden können die Wurzeln in diesem Topf vom Wasser ferngehalten werden, sodass Orchideen gesund wachsen und noch schöner aussehen können. Darüber hinaus gibt es drei transparente Farben, die den Kontakt zwischen den Wurzeln und dem Sonnenlicht ermöglichen.

MONDEGO

Mondego

Mondego is the biggest exclusively portuguese river. Its name comes from the latin and means clarity, transparency and purity inspired by its pure mountain waters. Influenced by this portuguese wonder of nature, we designed this new range of watering cans. Watering can be such hard work but with the right accessories it can be much easier and simple. With huge capacity and a traditional design these watering cans are highly functional and absolutely necessary for an easy maintenance of tiny gardens or indoor jungles. Besides, these river inspired watering cans are an allusion to the most poetic portuguese river, bringing a piece of Mondegos purity and poetry to any garden, counting on a range of nature inspired colors.

O Mondego é o maior rio exclusivamente português. O seu nome deriva do latim e significa claridade, transparência e pureza inspirado nas suas águas puras de montanha. Influenciados por esta portuguesa maravilha da natureza, desenhamos esta nova gama de regadores. A rega pode ser um trabalho árduo mas, com o acessório certo, pode tornar-se muito mais fácil e simples. Com uma grande capacidade e um design de linhas tradicionais, estes regadores são altamente funcionais e absolutamente necessários para uma fácil manutenção de pequenos jardins ou de selvas interiores. Além disso, estes regadores de inspiração fluvial, são uma alusão ao mais poético rio português, trazendo consigo um pedacinho da pureza e da poesia do Mondego para qualquer jardim, contando ainda com uma gama de cores inspiradas na natureza.

Mondego ist der größte ausschließlich portugiesische Fluss. Sein Name stammt aus dem Lateinischen und bedeutet Klarheit, Transparenz und Reinheit, inspiriert von seinem reinen Bergwasser. Beeinflusst von diesem portugiesischen Naturwunder haben wir diese neue Reihe von Gießkannen entworfen. Das Gießen von Pflanzen kann so harte Arbeit sein, aber mit dem richtigen Zubehör viel einfacher. Mit ihrer enormen Kapazität und ihrem traditionellen Design sind diese Gießkannen hochfunktionell und für eine einfache Pflege winziger Gärten oder Indoor-Dschungel unbedingt erforderlich. Außerdem sind diese vom Fluss inspirierten Gießkannen eine Anspielung auf den poetischsten portugiesischen Fluss, der jedem Garten ein Stück Mondegos Reinheit und Poesie verleiht und auf eine Reihe von von der Natur inspirierten Farben setzt.
